

# **MMS** *Generations* Student Information System

School Districts • Private & Parochial • Charter & Independent • K-12

***MMS is the complete Pennsylvania State Reporting solution to fulfill PA DOE requirements.*** This includes the ***PA PIMS*** system, ***PAsecureID***, and generation of ***14 ready-to-mail reports*** all formatted according to DOE specifications. For your peace of mind, we're absolutely committed to keeping up with the frequent changes to your data submission and reporting requirements. ***One less thing for you to worry about!***

Backed by three decades of expertise, MMS Generations is the Student Information System of choice for hundreds of Pennsylvania schools!

MMS Generations is a full-featured system, complete with a **Teacher Portal** offering an integrated Teacher Grade Book, Standard and Skills-Based Grades, Classroom Discipline, On-Line Attendance, and access to student and parent data.

The MMS **Parent & Student Portal** keeps everyone involved and informed on a real-time basis, from home, or anywhere Internet access is available.

Administrators and staff enjoy a powerful set of tools to handle everything from data collection and reporting, to flexible scheduling, grade reporting, discipline management, health records, and much more.

## **MMS Generations:**

- Fully scalable SQL system for single schools or entire districts
- Centralized, single installation, single database
- Hosted on your servers or in our data center
- Utilizing the latest Virtual Machine Technology or our Software as a Service (SaaS) plan – whichever fits your budget and needs
- SIF Certified
- Options for Cafeteria/Free & Reduced Management, Emergency Notification, Visitor/Security Management

*"MMS has done everything we needed it to do and more. The service has been outstanding, with response time, clarity of explanation, and the willingness to go that extra mile. We at Central Cambria are very pleased with your product!"*

**Dr. Joseph P. Karwoski, Central Cambria School District**
